

Technology Start-up Support Scheme for Universities (TSSSU)

**Assessment of Technology Start-up
for the 2025-26 Government Financial Year**

NOTES

1. Please use a separate form for each start-up.
2. Sections A to C should be completed by the funded start-up. Section D should be completed by the respective university unit responsible for TSSSU.
3. The information provided in this form will be used for performance monitoring and assessment of the start-up, statistical analysis, review of TSSSU and related purposes by Innovation and Technology Commission (ITC) and the associated university. It may be disclosed to other Government bureaux/departments, statutory bodies or third parties for the above said purposes or required by law. This submission denotes that the start-up concerned and the university unit responsible for TSSSU have given explicit consent to such disclosure.
4. Please tick the box as appropriate.

SECTION A: Particulars of the Start-up

(To be completed by the person-in-charge of the funded start-up)

Name of Start-up (in English) : TadReamk Limited

Name of Start-up (in Chinese) : 泰德瑞科有限公司

The Associated University : Hong Kong Baptist University

TSSSU Reference Number : TSSSU/HKBU/23/06/3

Name of Person-in-charge : Prof. XU, Yi Da

Webpage (if any) : <https://tadreamk.com>

SECTION B: Brief Description of Business

(To be completed by the person-in-charge of the funded start-up)

Please provide a summary of the start-up, its business and R&D work.

(Please add separate sheet(s) if necessary)

(in Chinese) (Not more than 100 words)

泰德瑞科是一家以機器學習為核心的公司，旨在提供圍繞商標人工智能技術的整體產品解決方案，包括商標侵權搜索、商標匹配和交互式的商標設計等。我們開發的產品套件通過基於訂閱的 SaaS 模式在網頁終端和智能手機應用程序上提供。

(in English) (Not more than 60 words)

TadReamk is a machine learning centric company that aims to provide a holistic product suite around trademark AI technology, including trademark infringement search, trademark matching and interactive trademark creation. Our techniques include image processing, matching and AIGC trademark generation models, offered through a subscription-based SaaS model.

SECTION C: Performance of the Start-up

(To be completed by the person-in-charge of the funded start-up)

Please describe the performance of the start-up made in the 2025-26 Government financial year.

(1) Technological Achievements/Deliverables of the Start-up

- (a) Are there any products/software/services developed from the R&D which has been rolled out in the market?

☒ Yes ☐ No (if no, please go to (1)(b)(i) direct)

If yes, please provide the following details for each deliverable that has been rolled out to the market:

Details of the deliverable(s) (e.g. name(s) and nature of the products/software/services and status of their respective intellectual property (IP) rights including patents/copyrights/trademarks, target clientele/market(s), expansion of business outside Hong Kong)		Involves IP(s) from university?	Involves IP(s) generated by the start-up?
(in English)	(in Chinese)		
1. TadReamk Eye (TE) — image-based trademark similarity search (web/mobile SaaS). ~30M USPTO index; CLDWS results in seconds. HK patent HK30117672 (2025). Markets: Government, Business (cross-border e-commerce), Consumer (SMEs/patent attorneys). Outside HK: USPTO coverage; Mainland exporter engagement.	1. TadReamk Eye (TE) — 圖像商標相似度搜索（網頁/流動 SaaS）。約 3,000 萬 USPTO 索引，CLDWS 秒級返回。香港專利 HK30117672（2025）。市場：政府、企業（跨境電商）、消費者（中小企/專利律師）。境外：USPTO 覆蓋及內地出口商合作。	☐ Yes ☒ No	☒ Yes ☐ No
2. TadReamk Create (TC) — AI logo/trademark generation with infringement screening. Powers HKBU Science Faculty logo competition. Markets: design studios, e-commerce, universities, government. Outside HK: Mainland trial partners.	2. TadReamk Create (TC) — AI 商標/標誌生成，內建侵權篩查。支援浸大理學院標誌比賽。市場：設計工作室、電商、院校、政府。境外：內地試用客戶。	☐ Yes ☒ No	☒ Yes ☐ No

Details of the deliverable(s) (e.g. name(s) and nature of the products/software/services and status of their respective intellectual property (IP) rights including patents/copyrights/trademarks, target clientele/market(s), expansion of business outside Hong Kong)		Involves IP(s) from university?	Involves IP(s) generated by the start-up?
(in English)	(in Chinese)		
3. TadReamk Patent — extends trademark AI into patent workflows. Markets: patent attorneys, R&D SMEs. Outside HK: international patent databases.	3. TadReamk Patent — 商標 AI 延伸至專利工作流。市場：專利律師、研發型中小企。境外：國際專利數據庫。	☐ Yes ☒ No	☒ Yes ☐ No
4. TadReamk Surveillance — continuous trademark/brand monitoring on TE engine (new filings, marketplaces, watch-lists). Markets: IP owners, brand-protection teams, attorneys. Outside HK: international databases and cross-border e-commerce.	4. TadReamk Surveillance — 基於 TE 的商標/品牌持續監控（新申請、交易平台、監控名單）。市場：知識產權持有人、品牌保護團隊、律師。境外：國際數據庫及跨境電商。	☐ Yes ☒ No	☒ Yes ☐ No
5. Logo Competition Platform — logo competition workflow with TC/TE (submission, AI ranking, infringement screening). Inaugural use: HKBU Science Faculty. Markets: universities, corporates, government. Outside HK: reusable for Mainland/international institutions.	5. Logo Competition Platform — 標誌比賽平台（投稿、AI 評分、TE 侵權核查）。首用：浸大理學院。市場：院校、企業、政府。境外：可供內地及國際機構複用。	☐ Yes ☒ No	☒ Yes ☐ No
6. Business Card Manager — AI business-card capture, OCR, deduplication and CRM follow-up. Markets: SMEs, sales teams, professional services. Outside HK: multilingual cards for cross-border networking.	6. Business Card Manager — AI 名片採集、OCR、去重及 CRM 跟進。市場：中小企、銷售團隊、專業服務。境外：多語言名片，服務跨境商務。	☐ Yes ☒ No	☒ Yes ☐ No

Details of the deliverable(s) (e.g. name(s) and nature of the products/software/services and status of their respective intellectual property (IP) rights including patents/copyrights/trademarks, target clientele/market(s), expansion of business outside Hong Kong)		Involves IP(s) from university?	Involves IP(s) generated by the start-up?
(in English)	(in Chinese)		
7. TadReamk Lace — AI Services portal (tadreamk.com/ai-services) for extended trademark/branding workflows. In Oct 2025 suite sales with TE and TC. Markets: Business and Consumer. Outside HK: portal for Mainland/overseas users.	7. TadReamk Lace — AI Services 門戶延伸商標/品牌 workflow。已納入 2025 年 10 月套件銷售。市場：企業及個人客戶。境外：供內地及海外用戶使用。	☐ Yes ☒ No	☒ Yes ☐ No
8. "Rachel" — chatbot for trademark AI stack; extended to company info and internal automation; basis for AI-assisted filing system. Markets: Government, Business, Consumer. Outside HK: multilingual interface.	8. 「Rachel」 — 商標 AI 對話機器人；已延伸至公司資訊及內部自動化，為 AI 輔助申請系統奠基。市場：政府、企業、個人。境外：多語言界面。	☐ Yes ☒ No	☒ Yes ☐ No
9. MallBuddy — RAG shopping-mall chatbot with logo-based indoor navigation; branding/marketing vehicle in 2025–26. Markets: malls, retail, brand advertisers. Outside HK: deployable in Mainland malls and cross-border retail.	9. MallBuddy — RAG 商場聊天機器人，具標誌室內導航；2025–26 作品牌推廣載體。市場：商場、零售、品牌廣告主。境外：可部署內地商場及跨境零售。	☐ Yes ☒ No	☒ Yes ☐ No

(b) (i) How many IP rights have been generated from the start-up and how many of them are arising from projects previously- funded by the Innovation and Technology Fund (ITF)?

	Total Number	Number of IP Rights Previously Funded by ITF (please provide details in (b)(ii))
Patents filed	1	0
Patents granted	1	0
Copyrights (no matter registered or not)	0	0
Trademarks/designs registered	1	0
Others <i>[please specify]</i> :		

(in Chinese)

(in English)

/

- (b) (ii) If the intellectual property rights generated are arising from previously-funded ITF projects, please list out the project information:

Name and Reference No. of the Previously-funded ITF Project	Project Period (dd/mm/yyyy - dd/mm/yyyy)	Amount of Funding Approved (HK\$)
1.		
2.		
3.		

- (c) Is there any science and technology/industry award granted for the results of the R&D and the commercialisation results?

☒ Yes ☐ No (if no, please go to(1)(d) direct)

If yes, please provide details (including g the address of any webpage of the award by means of footnote).

Local/Mainland awards
(in Chinese) (Not more than 50 words)
第八屆中國（上海）國際發明創新展覽會（2025 年 6 月 11 日至 13 日）榮獲銅獎。
(in English) (Not more than 30 words)
Bronze Medal at the 8th China (Shanghai) International Invention and Innovation Exhibition (11–13 June 2025)
International awards
(in Chinese) (Not more than 50 words)
(in English) (Not more than 30 words)

- (d) Please provide details/experience of successful commercialisation of R&D results (e.g. how did the commercialisation results bring benefits to the community/collaborating parties after the technologies/deliverables developed by the start-up were adopted).

(in Chinese)

2025–26 年度，本公司將研發成果整合為 TadReamk 軟件套件，並於 2025 年 10 月完成首批商業化：向兩位客戶各以人民幣 2,000 售出套件授權，涵蓋 TadReamk Lace、TadReamk Eye (TE)及 TadReamk Create (TC)，驗證了以商標 AI 為核心的整合式工作流具市場價值。本公司亦於 2025 年 12 月 4 至 5 日出席 BIP Asia 2025（香港會議展覽中心），設獨立及與浸大聯合展台，向各地專利律師及知識產權從業者推廣整合式套件。本公司亦已推出「Rachel」聊天機器人，透過對話界面向用戶提供商標 AI 技術服務，降低使用門檻，方便企業及創新者查詢、理解並運用相關功能。在與香港浸會大學理學院的合作中，TC 為正在進行的學院標誌設計比賽提供 AI 輔助創作，TE 則為參賽作品作侵權風險核查；比賽仍在進行中，獲勝方案尚未選出。該合作流程已產品化為 Logo Competition Platform，可供其他院校及機構採用。此外，TE 維持面向中小企及專利律師的免費/低門檻使用，協助其在申請前完成相似商標檢索，節省傳統搜尋所需的大量時間與費用，惠及更廣泛的創新及知識產權社群。

(in English)

During 2025–26, TadReamk consolidated its R&D deliverables into a unified software suite and achieved its first commercial sales in October 2025: two separate licence agreements at RMB 2,000 each to trial partners, each covering TadReamk Lace, TadReamk Eye (TE) and TadReamk Create (TC). This confirms market willingness to adopt the integrated trademark-AI workflow rather than individual tools alone. The company also exhibited at BIP Asia 2025 (4–5 December, HKCEC), with standalone and joint HKBU booths engaging patent attorneys and IP professionals on the integrated suite. The company has also launched "Rachel", a chatbot that exposes the trademark AI technology stack through a conversational interface, lowering the barrier for businesses and innovators to access, understand and use these capabilities. In collaboration with the HKBU Science Faculty, TC is powering an ongoing AI-assisted logo design competition while TE screens entries for infringement risk; the competition is in progress and no winning entry has yet been selected. This collaborating-party engagement has been productised as the Logo Competition Platform for reuse by other universities and organisations. TE's freemium tier continues to benefit SMEs and patent attorneys by enabling

affordable pre-filing similarity searches, saving substantial time and cost compared with conventional trademark search processes, thereby extending the community impact of the R&D results beyond paying customers.

(2) Financial Achievements/Deliverables of the Start-up

- (a) How much revenue has been received in the 2025-26 Government financial year through the commercialisation of the R&D results?

	(HK\$)
Licensing/sale of technology	4,567.58
Royalties	
Sales of sample/prototype	
Use of technology in production of goods for sales/provision of services	
Other technology transfer activities [Please specify: (in Chinese) (in English)]	
Total	4,567.58

- (b) Has the start-up been admitted to any incubation/acceleration programme (e.g. Hong Kong Science and Technology Parks Corporation, Cyberport, etc.)?

☒ Yes ☐ No (if no, please go to (2)(c) direct)

If yes, please provide the following details:

Name of incubator/accelerator and the incubation/acceleration programme	Period of the incubation/acceleration programme (dd/mm/yyyy - dd/mm/yyyy)	Additional grant approved by the incubator/accelerator (HK\$)
1. HKSTP Incubation (Reported in 2023-24 Annex D(ii) – updated amount)	26/7/2023 - 25/7/2026	1,290,000 [including \$450,000 as HKSTP rental subsidy]

2.		
3.		
Total		

- (c) How much capital or money has been raised (including private investment received by start-up funded by TSSSU+) in the 2025-26 Government financial year (other than TSSSU funding)?

Source of capital/money	(HK\$)
1. <u>Government</u> (in Chinese) (in English)	
2. <u>The Associated University</u> (Note) (in Chinese) (in English)	
3. <u>Private Investor(s)</u> (in Chinese) (in English)	
4. <u>Others (please specify)</u> (Note) (in Chinese) (in English)	
Total	

Note: For capital/money from the associated university and other sources, please add an asterisk (*) after the name of funding source if such capital/money originates from government subvention.

(3) Creation of Jobs/Training Opportunities

How many jobs/training opportunities have been created in the start-up (other than the members of the university team forming the start-up)?

Technical : 18

Non-technical : 8

(4) Material Modification to the Approved Budget/Business Proposal

How many counts of material modification to the approved budget/business proposal have been sought and approved by the associated university?

Reasons	No. of Change(s)
---------	------------------

Due to the introduction of new expenditure item(s)	2
Due to change(s) to the approved budget	
Due to change(s) to the approved business proposal	
Due to other change(s)	
Total	2

* * * * *

I/We hereby declare that:

- (1) the information in Sections A to C above is provided by *(name of the start-up)*
TadReamk Limited; and
- (2) all information provided in this form accurately reflects the status of affairs as at the date of submission.

SECTION D: Performance Assessment of the Start-up

(To be completed by the university unit responsible for TSSSU)

(1) Latest status of the Start-up (as at 31 March 20__)

- ☐ In Operation
- ☐ Ceased Operation on *(please specify date (dd/mm/yyyy))*: _____
- ☐ Others *(please specify)*: _____

(2) Please comment on whether the milestones proposed by the start-up in the application for the TSSSU funding support have been achieved within the specified period.

Period		Milestones	Achieved? (if not, please provide comments)
From (dd/mm/yyyy)	To (dd/mm/yyyy)		

(3) Please provide a performance assessment of the start-up, to the best of the unit's knowledge, for the 20__ - __ Government financial year.

		<i>Extremely satisfied / Likely</i>	A	B	C	D	E	N/A	<i>Extremely disappointed / Unlikely</i>
I. Innovation and Technology Content and Commercialisation									
Q1	How well do you think the R&D and commercialisation results have achieved in the following areas?								
	➤ <i>Technology breakthrough</i>		☐	☐	☐	☐	☐	☐	
	➤ <i>Improve production capability/ product quality</i>		☐	☐	☐	☐	☐	☐	
	➤ <i>Reduce production/product cost</i>		☐	☐	☐	☐	☐	☐	
	➤ <i>Others (please specify: _____ _____)</i>		☐	☐	☐	☐	☐	☐	
II. Commercial Viability of the Business									
Q2	How likely do you think the start-up would be a sustainable business in the future?		☐	☐	☐	☐	☐	☐	

		<i>Extremely satisfied / Likely</i>	A	B	C	D	E	N/A	<i>Extremely disappointed / Unlikely</i>
III. Capability of the Start-up and its Team to Undertake the R&D Work and Manage the Company									
Q3	How well did the start-up carry out the R&D work and commercialise the results as proposed in the business proposal agreed by the associated university and ITC?		☐	☐	☐	☐	☐		
Q4	How effective do you think the start-up was in making use of TSSSU funding and managing the budget?		☐	☐	☐	☐	☐		
Q5	How well did the start-up comply with funding requirements stipulated by ITC and the associated university (e.g. submission of requests for material modifications to the approved business proposal/budget, half-yearly report, annual report and reimbursement request in good time and in good quality, keep the university informed the progress of the R&D or modifications to the business proposal, etc.)?		☐	☐	☐	☐	☐		
IV. Social and/or Community Impact of the Start-up's R&D Work									
Q6	How likely will the R&D and its commercialisation results bring benefits to the community?		☐	☐	☐	☐	☐	☐	
Q7	How well did the start-up provide opportunities for training of local scientific personnel?		☐	☐	☐	☐	☐	☐	
V. Overall Performance									
Q8	How satisfied are you with the overall performance of the start-up?		☐	☐	☐	☐	☐		
Q9	How satisfied are you with the overall performance of the person-in-charge of the start-up?		☐	☐	☐	☐	☐		

- (4) Please list any other observations on the start-up for the 20__-__ Government financial year, and any appropriate follow up actions taken. (*Compulsory if the rating(s) for Q8 and/or Q9 in Section (D)(3) above is/are D or E*)

--

* * * * *

I/We confirm, to the best of my knowledge, that the information provided in Section D of this form is true and correct.
